

ENCASH

“Encash” allows clients to get the sales proceeds credited to their linked saving account on the trading day instead of normal sell trade T+2 settlement.

Features

1. Encash allows clients to get the sales proceeds credited to their bank accounts on the trade date.
2. Permitted only for Sell transactions*
3. Settlement on trade date on receipt of shares sold provides funds to meet any immediately cashflow requirements.
4. A standard brokerage rate will be charged for EnCash transactions.

How to trade Online

1. Log into your trading account with your user id and password
2. Select Sell, select scrip; choose “EnCash” from product type.
3. Put the Quantity & Price.
4. Click on “place order” followed by order confirmation
5. You can check the status in order book

*. 'Encash' transactions can be made only on the shares available in your Demat account.
